A DESPERATE BATTLE

Nine Men Dead and Many More
Seriously Wounded.

TROUBLE NOT OVER.

The Fight Occurred at Turner's Quarter House in Kentucky When Officers Attempted to Arrest the Owner for Offense.

Middlesboro, Ky., Feb. 13.—According to the latest reports from the scene of Wednesday's fight at Lee Turner's "Quarter House," in Bell county, three and a half miles from this city, between officers and citizens of Middlesboro and mountaineer friends of Turner, nine men were killed.

The dead are:
Charles Cecil, deputy sheriff.
John Doyle, an officer.
Charles Dye, a negro.
Marsh Wilson.
Perry Watson.
Frank Johnson, Turner's bartender.
Mike Welch, Turner's chief lieutenant.

Jim Pradoc.
A man named Hopper.

It is also claimed that an unknown mountaineer perished in the flames when Turner's saloon was burned.

Several other persons are reported burned to death, although there is no confirmation of this rumor.

Over 60 men were engaged in the conflict. The officers' posse numbered 40 and they were opposed by 22 mountaineers. Lee Turner, who is now at Mingo mines, denies that he took any part in the fight.

It is stated that he has called for 50 of his friends to avenge the death of his companions and resist any attempt which may be made by the officers to arrest him or any members of the mountaineer party who took part in the fight.

Knoxville, Feb. 13.—Six men are dead and as many more are dying as a result of a battle between officers from Middlesboro and mountaineers, says a special to the Knoxville Journal and Tribune from Middlesboro, Ky. The battle took place between 4 and 6 o'clock Wednesday afternoon at Lee Turner's "Quarter House" saloon, three and a half miles from Middlesboro.

Last month Turner had some mules and other goods levied on in payment for a debt and a few nights ago, it is alleged, he with others went to Virginia, where the property had been taken, secured what was formerly his and returned to the "Quarter House." Deputy Sheriff Thompson Wednesday summoned a posse of 10 or 15 men for the purpose of arresting Turner at his saloon. Turner had heard that an attempt would be made to arrest him, and he and his men, supposed to be about 15 in number, gave the officers a warm reception. The saloon is well situated for an attack like this. It is built of huge logs and is surrounded by a 30-foot fence in which loop holes are cut so that the inmates can shoot at outsiders. Turner's surrender was demanded. His reply was a round of shots. Charles Cecil of Middlesboro, was riding a palfrey in plain view of the Turner men. One of the party raised a window of the log dive and shot Cecil, who fell dead. Instantly the murdered fell back pierced by a half dozen bullets. Then the firing began in earnest, the officers scattered, and hiding behind trees and rocks poured a galling fire into the mountain fortress. In the firing John Doyle, a former railroad man, was badly wounded, perhaps fatally, and Simon Bean, another ex-railroader, was shot in the hand.

The two men gathered closer around Turner's place undaunted at the shots which whizzed around them. As soon as Cecil was killed his companions determined to burn Turner's rendezvous, and after the battle a man applied a torch to an exposed side of the building. In a few minutes the building was in flames. Several of the mountaineers came to the window and were immediately shot down. The posse surrounded the barricade, determined to let none escape. Lee Turner and several of his friends, however, in some manner escaped and are now at Mingo mines, eight miles from Middlesboro. Several of his men perished in the flames.

All sorts of rumors are afloat, one being that five Turnerites were killed by the attacking men and five more perished in the flames. It is also believed that the posse lost more men than one and that some of the Middlesboro fighters may now be dying or lying dead in some of the hollows surrounding the "Quarter House."

It is feared that the trouble is not at an end. Turner who, it is alleged, has killed several men, is not one who is easily cowed, and it is believed that he will organize a band and avenge the death of his friends and the burning of his saloon.

Rose Hill, Va. He was a brother of "Wild Bill" Turner, who was killed several years ago.

The "Quarter House" is known far and wide because of the number who have been killed within its confines.

Kid Lavigne Breaks a Bone.

San Francisco, Feb. 13.—In boxing with his sparring partner, Mike Donovan, Kid Lavigne broke one of the bones of his left forearm. This makes it impossible for him to carry out the fight between Lavigne and Jack O'Brien of New York.

CANNOT COMPLY.

Prince Henry Cannot Leave Kiel Sooner Than Saturday Afternoon

Kiel, Feb. 13.—Mayor Low of New York has cabled Prince Henry of Prussia saying Herr Wiegand, director-general of the North German Lloyd line, thinks unless Kron Prinz Wilhelm sails from Bremen earlier than 3 o'clock Saturday afternoon she will not be able to arrive in New York, owing to rough weather which prevails at this season of the year, until late in the afternoon of Feb. 22, too late for the ceremony of the municipal welcome and the presentation to the prince of the freedom of the city of New York. When asked if the steamer could not leave Bremen at an earlier hour, Prince Henry replied that he was unable to change the sailing hour to reach New York early on Saturday, Feb. 22. Kron Prinz Wilhelm is not chartered by Prince Henry. He and his party go simply as passengers and it is too late to notify the hundreds of other passengers that the steamer would sail 12 hours earlier than heretofore announced, as she would be unable to do in order to catch the tide. Herr Wiegand's view of the case was not shared by the commander of Kron Prinz Wilhelm. The latter thinks the steamer can reach New York by midday, Feb. 22.

THEODORE IS BETTER.

President's Son Sufficiently Improved to Permit His Return to Washington.

Groton, Mass., Feb. 13.—Young Theodore Roosevelt passed a good night and this morning his condition is such that it was announced the president would leave for Washington this afternoon. The crisis of the disease in the right lung has been passed successfully; the left lung has cleared to the satisfaction of the doctors and the boy is now considered out of danger.

Will Not Accept New Rules.

Chicago, Feb. 13.—It is stated that President Ben Jackson, of the American league, after consulting with Umpire Jack Sheridan and President Hickney of the American association, the latter having just returned from the east, authorized the announcement that the American league would not accept the new rules framed at the Buffalo meeting. It is also predicted in baseball circles that Hickey will follow Johnson's lead, and several other minor leagues are likely to follow suit. This means a complete collapse of the plan of formulating a universal code of rules under which games in all leagues, both professional and amateur, were to be played.

Express Companies May Consolidate.

San Francisco, Feb. 13.—The Call states that the four big express companies of the country, Adams, American, United States and Wells-Fargo, may merge into one corporation. It says: "Word comes by private message from the east that F. H. Harriman, president of the Southern Pacific company, will be elected to the presidency of the Wells-Fargo express company at the annual meeting of stockholders." The paper adds that Harriman may be selected as president of the proposed company.

Warrants for Princes.

Constantinople, Feb. 13.—Warrants have been issued for the arrest of Princes Lutfullah and Sabahaddin, sons of Damad Mahmud Pasha, the sultan's brother-in-law, and other prominent Turkish fugitives who are charged with organizing at the prince's headquarters in Paris a conspiracy to overthrow the sultan. They will probably be sentenced to death by default as was recently done in the case of Damad Mahmud Pasha.

Extensive Stock Yards.

Portland, Ore., Feb. 13.—It has been decided by the Harriman lines to establish extensive stock yards on the peninsula between the Columbia and Willamette rivers, about four miles from this city. A tract of 100 acres of land has been secured for this purpose. It is also said an immense packing house will be established at the stock yards.

Champion Linotype Operator.

Indianapolis, Feb. 13.—Claude Crouse of this city has broken the world's record as the fastest operator on the Linotype machine. He put up in seven hours and forty-five minutes 86,200 ems. The fastest record heretofore was the same number in eight hours by an Iowa printer. Crouse set 91,000 ems in that time. This included corrected proof.

Prof. E. W. Kerr, assistant profes-

through Messrs. John Wiley &
Sons of New York City, the title
of which is "Power and Power
Transmission." It is very neatly
and substantially bound and is co-
piously illustrated, containing 264
figures and is made up of 356
pages. The work is designed as a
guide to beginners in mechanical
engineering and special space is
devoted to the expounding of the
principles of transmission of ma-
chinery, steam power, water power,
gas and gasoline engines. The
book will undoubtedly fill a long
felt want and it has already
been included in the curricula of
the universities of Louisiana
and Ohio. A large part of the
subject matter of the book has
been used by the author here in
his class room lectures for some
few years and they have proven
themselves so well adapted to class
work that he decided to put them
and some other work into book
form.

The debate at Concord last Fri-

The question was, "Resolved, that
England is waging a just war
against the South African Boers." Decision was in favor of affirma-
tive. Both sides were ably dis-
cussed. Another debate will be
at Concord on Tuesday night, Feb-
ruary 21. Let everybody come.

WOMAN'S SUFFRAGE.

The First International Congress Now in
Session at Washington.

Washington, Feb. 13.—The first in-
ternational woman's suffrage confer-
ence and thirty-fourth annual conven-
tion of the National American Woman's
Suffrage association was begun
here Wednesday with an unusually
large number of delegates in attend-
ance. The convention was presided
over by Mrs. Carrie Chapman Catt, its
president. The delegates were wel-
comed to the city by Hon. Henry B.
McFarland, president of the board of
district commissioners.

The foreign delegates who were seat-
ed on the platform and who took great
interest in the proceedings, listened
to words of greeting from May Wright
Sewall, Clara Barton, Susan B. Antho-
ny and Rev. Anna H. Shaw.

Madame Sofja Levovna, of Russia,
fittingly responded, saying in part that
ca during the Civil war and that close
ties of friendship exist between the
two countries. America, she said, had
more than once displayed friendship
toward Russia and had sent her ships
there to protect her people from a most
cruel enemy—hunger.

Mrs. Catt, the president, then de-
livered her annual address.

At the conclusion of Mrs. Catt's ad-
dress a recess was taken until 8 o'clock.
The first night's session of the con-
vention was very appropriately given
over to the pioneers, a number of
whom occupied seats on the platform.
Miss Susan B. Anthony presided and
greetings and addresses from a num-
ber of well known women were heard.
A paper by Mrs. Elizabeth Cady Stan-
ton was the most prominent.

ANOTHER NEW ROAD.

Charter for One from Fort Smith to
Guthrie Taken Out.

Guthrie, O. T., Feb. 13.—The Fort
Smith and Western Railroad company
has been chartered here to build to
this city from Fort Smith, Ark., a dis-
tance of 350 miles. The principal place
of business is Guthrie, and the capital
stock is \$2,500,000. The line is in op-
eration out of Fort Smith for 50 miles
and is in course of construction here.

The Missouri, Kansas and Texas
Railroad company commenced here
Wednesday the grading for the exten-
sion of the line from Coffeyville, Kan.
to this city, a distance of 200 miles.
Guthrie is a division point, and a large
tract has been reserved for terminals.
The line will be extended from Guthrie
to El Reno, Ada, and into Texas.
Also via Oklahoma City to Coalgate, I.
T., and via Osage Nation to Muskogee,

Suicide of a Texan.

New Orleans, Feb. 13.—There is a
mystery surrounding the suicide of
Wallace E. Stephens, a Texan, whose
body was discovered Wednesday in
his room in the boardinghouse of Mrs.
E. J. Hanley, No. 521 St. Joseph street.
Death was caused by a dose of chloral
hydrate. In a note to Mrs. Henle
Stephens said: "There is a reward
hanging over my head, if I capture
dead or alive of \$1000 and I am
hoping that you will get it."

Stephens left a letter to his brothe-
He stated his intention of committing
suicide.

Young Roosevelt Improving.

Groton, Mass., Feb. 13.—If Theodore
Roosevelt, Jr., continues for the next
24 hours in his present condition his
physicians have given President and
Mrs. Roosevelt to believe their son's
vitality will be sufficient for him to
meet and pass successfully the crisis
in his disease, which is looked for
some time today, and tomorrow
morning he will be practically out of
danger.

Miss Dowdy Drowns Herself.

Cisco, Tex., Feb. 13.—Miss Beatrice
Dowdy of this place committed suicide
at Moran Sunday evening by drown-
ing. She had gone to visit a friend
last Friday and was expected back
Monday, but failed to return. She left
a note to her friend advising that her
remains could be found in a tank near
Moran and upon investigation the body
was found at the place designated. She
was reared in Cisco.

Duel Near Adkins.

San Antonio, Tex., Feb. 13.—In a pis-
tol duel between Solomon Holmes on
one side and D. W. and B. Beckham,
father and son, on the other, near Ad-
kins in this county, Holmes was killed.
The two Beckhams surrendered to of-
ficers and were locked up in jail in
this city. The parties are all well-to-
do farmers. The trouble grew out of a
land transaction.

Indicted for Murder.

Oklahoma City, O. T., Feb. 13.—Wm.
T. Peoples, who shot and killed E. F.
McLaughlin, a clerk here, was indicted
for murder in the first degree. An in-
dictment was also returned against
Arthur Delisspar and Charles Eby for
extortion.

Killed in a Runaway.

Weatherford, Tex., Feb. 13.—A tele-
phone message from Adel says Charlie
McDougal, aged about 40 years, was
killed near Adel by a runaway team.

An Offer from Cuba.

Washington, Feb. 13.—Cuba offers,
in return for tariff concessions, to
limit her carrying trade to vessels of
American and Cuban registry.

Mutilated by an Elevator.

Quanah, Tex., Feb. 13.—W. O. Katy
was mutilated and killed here by the
elevator at the Acme cement works.

Blackburn's Son Dead.

Frankfort, Feb. 13.—Joe Blackburn,
Jr., son of United States Senator
Blackburn, died here of pneumonia.

the idea of fittingly celebrating
Washington's Birthday (Feb. 22) by
suitable "Mexican-American" fiestas
and parades, and from a small source
this has grown to a magnificent
event, unsurpassed in its splendid

This year the celebration will con-
sist of three days continuous festivi-
ties, Feb. 21st, 22d and 23d, the prin-
cipal day of course being the 22d, and
the program, which is very elaborate,
will comprise several new and inter-
esting features among which may be
mentioned daylight and night bull
fights, the latter by electric illumina-
tion, torchlight parades, embodying
typical Mexican and Indian
features, sham battle and capture of
the city by the Indians, naval fire-
works, military drills and display
evolutions, historical pageants and
trades display, flower carnival, band

A USEFUL BOOK.

Work of a Professor of the Agricultural

College Station, Texas, Feb. 9—
Prof. E. W. Kerr, assistant profes-
sor of mechanical arts at this col-
lege, has recently issued a book,
through Messrs. John Wiley &
Sons of New York City, the title
of which is "Power and Power
Transmission." It is very neatly
and substantially bound and is co-
piously illustrated, containing 264
figures and is made up of 356
pages. The work is designed as a
guide to beginners in mechanical
engineering and special space is
devoted to the expounding of the
principles of transmission of ma-
chinery, steam power, water power,
gas and gasoline engines. The
book will undoubtedly fill a long
felt want and it has already
been included in the curricula of
the universities of Louisiana
and Ohio. A large part of the
subject matter of the book has
been used by the author here in
his class room lectures for some
few years and they have proven
themselves so well adapted to class
work that he decided to put them
and some other work into book
form.

Denton, Texas, Feb. 5, 1932.

Dr. Joseph Daly, 281 Main street, Dallas, Texas:
Dear Sir:—When I took my daughter to Denton to see you about her eyes she was suffering considerable pain and could not go out in the light. Her lids were badly granulated and she had ulcers on the eyeballs. She has been under your treatment two months and her eyes are as well and strong as ever.

Thanking you from the bottom of my heart for what you have done for my daughter, I beg to remain,

Misses Mary and Nellie Rohde returned from Hearne yesterday.

The Civic Club.

The Civic Club had a large meeting yesterday in the parlors of Mrs. L. L. McInnis—the finest meeting in point of attendance and good work done that they have ever held.

The committee to canvass for contributions to pay for trees, reported a collection of \$18.00, and the Club express their hearty thanks to the business and professional men of Bryan for their cheerful contributions.

After paying all expenses so far incurred and balancing up the accounts it was found that they had \$35.00 in the treasury.

Maj. W. R. Cavitt gained the unanimous gratitude of the club for his contribution of a dozen fine trees, and his offer in connection with the gift to bear the entire expense of removal and transplanting.

A committee consisting of H. A. Burger, W. S. Howell, Dr. Emory and J. A. Myers, upon invitation, met with the club.

Dr. Emory was elected treasurer of the club.

The ladies of the various clubs of Bryan will form groups to plant floral beds in the city park, and the different groups will compete for the distinction of planting and arranging the prettiest beds.

This is a unique and interesting program, and will mark an era in town decoration and the art of civic ornamentation. Good speed to the ladies in their noble work.

I. & G. N. Excursion Rates.

Dates shown are those on which tickets are for sale:

Laredo, February 21, Washington's birthday celebration.

San Antonio, Jan. 31 and Feb. 2 and 3, I. O. O. F. state meeting.

Waco, Feb. 20 and 21, Green's brigade reunion.

Dallas, Feb. 11 and 12, People's party convention.

New Orleans, Feb. 5 to 10, Mardi Gras festivities.

Low excursion rates will be made for the above occasions, full particulars of which may be obtained from nearest ticket agent or by addressing D. J. Price, G. P. & T. A., Palestine, Texas.

The seed sown through the local papers and other sources to interest the people of Bryan in a cotton mill was by no means wasted, as many may believe. There is more than one business man in Bryan seriously interested in the project, and there is every reason to believe the business league will take hold of the matter at no distant date. The question of fuel is no longer a bar to progress in manufacturing in Texas, and the live towns all over the state are going into it. Atlanta, Ga., without cotton, iron, coal, oil, wool, timber, or raw material of any kind, and without the advantage of water rates, has by dint of energy and perseverance become one of the leading manufacturing centers of the south. Then why can not Bryan, in the center of a cotton section, and with ample railroad facilities, establish a cotton mill? Bryan needs a tin bucket brigade to support her agricultural interests. It would help to make a market for everything the farmer raises, including an unfailing home market for truck crops.

KURTEN.

February 10, 1932.—Health is very good at this writing.

People are preparing their land for the coming crop.

There was no preaching Saturday nor Sunday on account of the bad weather, but we had singing in the afternoon.

Mrs. Lula Lawless visited Edge the past week.

Mr. Willie Browders, of Edge, was down Sunday eve.

The storm dance at Mr. Joe Shepard's Friday night was a grand success and a large crowd was present.

Let's all remember that Friday is Valentine's day.

There will be a meeting of the Literary society at the hall Saturday. Everybody invited to come and bring somebody with them.

On account of bad weather, the attendance at church last Sunday was small.

L. B. Carroll came over from Grimes county Friday after a load of corn.

James Lavis has returned from Madison county, after a week's visit to his father.

Come out everybody and help to make the literary society a success.

Mr. Henry Glover, of Ebenezer, visited here Saturday.

The weather for the past two weeks has been severe on poor stock.

J. C. Shaw and family went to Cottonwood last Sunday.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutritive is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. AT THE TEXAS CAPITAL TO AVOID COLLISIONS

Secretary of State Advised of Two Companies Leaving State.

FIVE MORE TO GO.

The Waters-Pierce Trust Company Before the Court of Appeals and Some Points in the Case Are Being Argued.

Austin, Feb. 13.—The secretary of state has been advised by the Svea, Baloise and Helvetia Insurance companies of Switzerland and the Royal Exchange and Norfolk of England that they can not make the anti-trust affidavit.

With reference to the insurance companies which will not qualify to do business in Texas during the current year on account of the anti-trust law, it was learned from the insurance commissioner that several of them had re-insured with other companies which will continue in Texas. The contract of reinsurance has been received from two or three of the companies.

The insurance commissioner estimates that 8 foreign companies which did business in Texas last year will not qualify this year. It is not believed that all of these companies have withdrawn on account of the anti-trust law, but some of them have not had a satisfactory business.

Commissioner Johnson is of the opinion that the companies continuing in Texas will be well able to re-insure all of the risks of the companies withdrawing, thus obviating any trouble.

Several of the foreign companies complaining of the anti-trust law show that their business in this country is wholly in the hands of a general agency, though the head of it is not an officer in the corporation. The anti-trust law requires the affidavit to be signed by an officer in the corporation, that it is not a member of any pool, combination or trust; and that as the officers all reside in Europe they are not in a position to know what method is pursued by their United States agencies.

Five More Companies Withdraw.

Austin, Feb. 13.—Five old line insurance companies have given formal notice to the state insurance department of their withdrawal from Texas on account of obnoxious features of the Texas anti-trust laws, which have practically driven them out of business in Texas.

The five companies are: Eagle Fire Insurance company of New York, Lion Fire Insurance company of London, Madgeburg Fire Insurance company of Madgeburg, Germany, American Fire Insurance company of New York and Lancashire Fire Insurance company of Manchester.

Complaint from Confederates.

Austin, Feb. 13.—The legislative investigating committee spent the morning taking the testimony of inmates of the Confederate home to discover if irregularities exist at that institution. A number of veterans were examined, and they roasted the board of managers and other officers, complained of the food and declared the milk was watered. The food is not properly prepared and is not the best that could be had.

The Waters-Pierce Case.

Austin, Feb. 13.—In the third court of civil appeals the case of the state vs. Waters-Pierce Oil company, on appeal from McLennan, was resubmitted. The former submission was set aside and the court of its own motion heard the discussion as to whether or not the case was civil or criminal in character.

The court took the case under consideration.

The submission of the motion to dismiss the appeal in the case of the state of Texas vs. the Shippers' Compress and Warehouse company, on appeal from Travis county, was postponed.

The motion to dismiss the appeal will be submitted next Wednesday, when the points involved are to be argued. The Compress company has filed a motion to dismiss the appeal on the grounds that the proceedings were criminal, and when decided adversely to the state it could not appeal.

Penitentiary Report.

Austin, Feb. 13.—The report of Penitentiary Superintendent J. S. Rice shows that there were 3896 convicts on hand on Jan. 1, 1902 new convicts were received during the month of January, 1 was recaptured, 74 were discharged, 8 were pardoned, 3 escaped, 2 died and 3 were delivered to sheriffs. The total number of convicts on hand Jan 31 was 3909.

Killed by an Engine.

Greenville, Tex., Feb. 13.—While Jack Jones, a negro, was at work at the coal chute in the Katy switch yard here he got caught under the wheels of road engine No. 192 and was dragged a distance of about 25 yards, badly mangled the right leg and sustaining such other injuries as to cause his death.

Charged With Assault on Murder.

Greenville, Tex., Feb. 13.—James Williams, charged with assault on murder Squire R. B. Long near Commerce last Sunday, has been arrested and placed in jail here pending execution of bond in the sum of \$500.

Woman Burned to Death.

Terrell, Tex., Feb. 13.—Information was received in this city that Mrs. Smith, living on the Griffin league, 10 miles northwest of this city, was badly burned Tuesday, from the effects of which she is not expected to live.

A Light Than Be Seen for More Than Ten Miles.

A SUCCESSFUL TRIAL

A Searchlight Is Thrown from the Headlight Above the Earth Enabling Engineers to Detect Approaching Trains.

Chicago, Feb. 13.—A practical demonstration of the utility of a new departure which, it is claimed by railway officials, will effectively prove the solution in a large degree of the railway collision problem, was made last Wednesday night on the Chicago, Milwaukee and St. Paul railway near here. The device consists of an exceedingly powerful headlight, which not only perfectly illuminates the track with an intensely brilliant shaft of light for the distance of a mile, but also embraces the striking and novel feature of a beam of light of almost equal brilliancy penetrating over 700 feet above, which can be clearly seen ten miles distant. It is thereby possible for approaching trains to absolutely locate each other by this vertical shaft of light, though miles apart, and it is this feature which the railroad officials claim will eliminate the possibility of collisions. This vertical beam will, in hilly country especially, when curves in the track are numerous, so positive fix the location of trains that nothing but carelessness on the part of engineers will permit of a collision. The apparatus consists of a powerful electric arc headlight, a dynamo and steam motor, all of which occupy that space on the locomotive usually devoted to the headlight. The dynamo which generates the current for this veritable searchlight, occupies a space of less than 15 inches wide directly behind the headlight, and is operated by a motor driven by steam impact on a turbine wheel. The current is 6000 candle power, which can be reduced to any degree of brilliancy at the will of the engineer.

One of the heaviest passenger engines on the Chicago, Milwaukee and St. Paul, experimentally equipped with this headlight, drew a special train a number of miles out of Chicago last Wednesday night and a practical demonstration of the working of the apparatus was given under the supervision of Charles W. Adams, formerly assistant general passenger agent of the Pennsylvania system. At a distance of half a mile the telegraph poles and framework of semaphores were clearly defined, while the track bed itself was distinctly visible for one mile. Straight above the locomotive a shaft of light as thick as a man's body penetrated the darkness, and persons posted ten miles away reported that it was clearly distinguishable. This is an entirely new departure in headlight illumination and railway signals. It is further proposed to convey signals of distress or other communications when trouble occurs between telegraph points, by the use of colored glass to color the vertical ray of light.

Options on Three Steamers.

Chicago, Feb. 13.—Options have been secured by Captain E. D. Comings of Seattle on three steamships for the Trans-Alaskan railway to ply between Seattle and Iliamna Bay, Alaska, and forming the connecting link in railway transportation between the United States and Asia. Those secured are of 2600 tons freight and 300 passenger capacity, and cost approximately \$125,000 each. One was secured on the Atlantic coast and two on the lakes. They are single screw vessels with a speed of ten knots an hour.

Honor to Chamberlain.

London, Feb. 13.—The metropolis bestowed its highest distinction on Joseph Chamberlain, the colonial secretary today when at Guild Hall it conferred on him the freedom of the city in a gold casket. The hall was crowded and great enthusiasm prevailed. Addresses in connection with the presentation congratulated Chamberlain on the services he had rendered to the empire during the last 25 years, dwelling especially upon the way in which he had welded the colonies together.

Patrick's Trial Proceeds.

New York, Feb. 13.—The trial of Patrick, accused of the murder of Rice, the Texas millionaire, was continued today. When court adjourned today, Tuesday Albert S. Osborn, the handwriting expert, was on the witness stand. He had finished his technical explanation and is now illustrating on the blackboard the characteristics he found in the genuine signatures of Mr. Rice and what he stated to be discrepancies discovered by analysis of the alleged forgeries.

Drove Japanese Out.

Florence, Col., Feb. 13.—The trouble between the Victor Fuel company and miners employed at their coal mines at Chandler, near this city, culminated in an attack on the Japanese miners who had taken the places of the strikers and the demolition of the boarding house occupied by the Japanese. The mob drove the Japanese out of the camp.

Coronation Robes Elaborate.

London, Feb. 13.—Descriptions of the coronation robe of the king and queen, now making in England, emphasize the fact that the coming pageant will be the richest and most magnificent on record.

15-Year-Old Boy of Mrs. Countryman a Victim the Third Time.

St. Joseph, Mich., Feb. 13.—Lawrence, the 6-year-old son of Mrs. A. J. Countryman, who has been a victim of two sensational kidnapping cases, has again disappeared from the home of his grandparents, Mr. and Mrs. Robert Van Brunt, of this city. He has not been seen since Monday morning. He left the house coatless, and his whereabouts are unknown.

For the last six years Mrs. Countryman lived in Chicago, where her husband was employed in the Union stock yards. One year ago they quarreled, and the mother with her two children returned to this city to live with her parents. On July 4 the boys, Lawrence, aged 5, and Albert, aged 8, were mysteriously stolen in broad daylight from in front of their grandfather's home in a densely populated section of this city.

The mother later found her boys in a negro den in Chicago, and escaped to a box, with the younger of them, after an exciting chase through the streets. Countryman pursued her to the boat, but passengers prevented him taking the boy, who has since been living here.

Want Reporters Admitted.

Washington, Feb. 13.—With the exception of a sharp clash between Mr. Lodge and Mr. Patterson over the matter of admission of representatives of the press to the investigation which the Philippines committee is conducting, the discussion on the tariff bill in the senate Wednesday was quiet. The Colorado senator desired that all newspaper men be admitted to the committee hearings, declaring that as now conducted they were of a star-chamber character. He said his recollection was that Mr. Lodge had suggested that the hearings be entirely secret. The Massachusetts senator indignantly denied that he had suggested anything of the kind, he insisted that the reports of the hearing by the three press associations were accurate and fair.

Mr. Teller occupied the attention of the senate during the greater part of the session and had not yet concluded his speech when the senate adjourned.

Spanish-American War Claims.

Washington, Feb. 13.—War claims occupied the attention of the house Wednesday after the passage of the oleomargarine bill and the day was made notable for the passage of the first bill for the payments of claims of United States citizens arising out of the Spanish-American war. It carried something over \$55,000 for the payment of 202 claims for property taken within the United States for the use of the army.

An omnibus bill carrying claims aggregating \$2,114,552 for stores and supplies taken from loyal citizens during the civil war also was passed. These claims were allowed under the provisions of the Bowman act. Two other bills, which have been before congress for 28 years to refer certain claims for additional compensation by the builders of certain monitors during the civil war to the court of claims, were passed.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac. dttf

AT THE TEXAS CAPITAL TO AVOID COLLISIONS

Secretary of State Advised of Two Companies Leaving State.

FIVE MORE TO GO.

The Waters-Pierce Trust Company Before the Court of Appeals and Some Points in the Case Are Being Argued.

Austin, Feb. 13.—The secretary of state has been advised by the Svea, Baloise and Helvetia Insurance companies of Switzerland and the Royal Exchange and Norfolk of England that they can not make the anti-trust affidavit.

With reference to the insurance companies which will not qualify to do business in Texas during the current year on account of the anti-trust law, it was learned from the insurance commissioner that several of them had been insured with other companies which will continue in Texas. The contract of reinsurance has been received from two or three of the companies.

The insurance commissioner estimates that 8 foreign companies which did business in Texas last year will not qualify this year. It is not believed that all of these companies have withdrawn on account of the anti-trust law, but some of them have not had a satisfactory business.

Commissioner Johnson is of the opinion that the companies continuing in Texas will be well able to reinsure all of the risks of the companies withdrawing, thus obviating any trouble.

Several of the foreign companies complaining of the anti-trust law show that their business in this country is wholly in the hands of a general agency, though the head of it is not an officer in the corporation. The anti-trust law requires the affidavit to be signed by an officer in the corporation, that it is not a member of any pool, combination or trust; and that as the officers all reside in Europe they are not in a position to know what method is pursued by their United States agencies.

Five More Companies Withdraw.

Austin, Feb. 13.—Five old line insurance companies have given formal notice to the state insurance department of their withdrawal from Texas on account of obnoxious features of the Texas anti-trust laws, which have practically driven them out of business in Texas.

The five companies are: Eagle Fire Insurance company of New York, Lion Fire Insurance company of London, Madgeburg Fire Insurance company of Madgeburg, Germany, American Fire Insurance company of New York and Lancashire Fire Insurance company of Manchester.

Complaint from Confederates.

Austin, Feb. 13.—The legislative investigating committee spent the morning taking the testimony of inmates of the Confederate home to discover if irregularities exist at that institution. A number of veterans were examined, and they roasted the board of managers and other officers, complained of the food and declared the milk was watered. The food is not properly prepared and is not the best that could be had.

The Waters-Pierce Case.

Austin, Feb. 13.—In the third court of civil appeals the case of the state vs. Waters-Pierce Oil company, on appeal from McLennan, was resumed. The former submission was set aside and the court of its own motion heard the discussion as to whether or not the case was civil or criminal in character.

The court took the case under consideration. The submission of the motion to dismiss the appeal in the case of the state of Texas vs. the Shippers' Compress and Warehouse company, on appeal from Travis county, was postponed.

The motion to dismiss the appeal will be submitted next Wednesday, when the points involved are to be argued. The Compress company has filed a motion to dismiss the appeal on the grounds that the proceedings were criminal, and when decided adversely to the state it could not appeal.

Penitentiary Report.

Austin, Feb. 13.—The report of Penitentiary Superintendent J. S. Rice shows that there were 3896 convicts on hand on Jan. 1, 102 new convicts were received during the month of January. 1 was recaptured, 74 were discharged, 8 were pardoned, 3 escaped, 2 died and 3 were delivered to sheriffs. The total number of convicts on hand Jan 31 was 3909.

Terrell, Tex., Feb. 13.—Information was received in this city that Mrs. Smith, living on the Griffin league, 10 miles northwest of this city, was badly burned Tuesday, from the effects of which she is not expected to live.

A Light Than Be Seen for More Than Ten Miles.

A SUCCESSFUL TRIAL

A Searchlight Is Thrown from the Headlight Above the Earth Enabling Engineers to Detect Approaching Trains.

Chicago, Feb. 13.—A practical demonstration of the utility of a new departure which, it is claimed by railway officials, will effectively prove the solution in a large degree of the railway collision problem, was made last Wednesday night on the Chicago, Milwaukee and St. Paul railway near here.

The device consists of an exceedingly powerful headlight, which not only perfectly illuminates the track with an intensely brilliant shaft of light for the distance of a mile, but also embraces the striking and novel feature of a beam of light of almost equal brilliancy penetrating over 700 feet above, which can be clearly seen ten miles distant.

It is thereby possible for approaching trains to absolutely locate each other by this vertical shaft of light, though miles apart, and it is this feature which the railroad officials claim will eliminate the possibility of collisions. This vertical beam will, in hilly country especially, when curves in the track are numerous, so positively fix the location of trains that nothing but carelessness on the part of engineers will permit of a collision. The apparatus consists of a powerful electric arc headlight, a dynamo and steam motor, all of which occupy that space on the locomotive usually devoted to the headlight.

The dynamo which generates the current for this veritable searchlight, occupies a space of less than 15 inches wide directly behind the headlight, and is operated by a motor driven by steam impact on a turbine wheel. The current is 6000 candle power, which can be reduced to any degree of brilliancy at the will of the engineer.

One of the heaviest passenger engines on the Chicago, Milwaukee and St. Paul, experimentally equipped with this headlight, drew a special train a number of miles out of Chicago last Wednesday night and a practical demonstration of the working of the apparatus was given under the supervision of Charles W. Adams, formerly assistant general passenger agent of the Pennsylvania system. At a distance of half a mile the telegraph poles and framework of semaphores were clearly defined, while the track bed itself was distinctly visible for one mile. Straight above the locomotive a shaft of light as thick as a man's body penetrated the darkness, and persons posted ten miles away reported that it was clearly distinguishable. This is an entirely new departure in headlight illumination and railway signals. It is further proposed to convey signals of distress or other communications when trouble occurs between telegraph points, by the use of colored glass to color the vertical ray of light.

Options on Three Steamers.

Chicago, Feb. 13.—Options have been secured by Captain E. D. Comings of Seattle on three steamships for the Trans-Alaskan railway to ply between Seattle and Iliamna Bay, Alaska, and forming the connecting link in railway transportation between the United States and Asia. Those secured are of 2600 tons freight and 300 passenger capacity, and cost approximately \$125,000 each. One was secured on the Atlantic coast and two on the lakes. They are single screw vessels with a speed of ten knots an hour.

Honor to Chamberlain.

London, Feb. 13.—The metropolis bestowed its highest distinction on Joseph Chamberlain, the colonial secretary today when at Guild Hall it conferred on him the freedom of the city in a gold casket. The hall was crowded and great enthusiasm prevailed. Addresses in connection with the presentation congratulated Chamberlain on the services he had rendered to the empire during the last 25 years, dwelling especially upon the way in which he had welded the colonies together.

Patrick's Trial Proceeds.

New York, Feb. 13.—The trial of Patrick, accused of the murder of Rice, the Texas millionaire, was continued today. When court adjourned today Albert S. Osborn, the journeyed Tuesday Albert S. Osborn, the handwriting expert, was on the witness stand. He had finished his technical explanation and is now illustrating on the blackboard the characteristics he found in the genuine signatures of Mr. Rice and what he stated to be discrepancies discovered by analysis of the alleged forgeries.

Drove Japanese Out.

Florence, Col., Feb. 13.—The trouble between the Victor Fuel company and miners employed at their coal mines at Chandler, near this city, culminated in an attack on the Japanese miners who had taken the places of the strikers and the demolition of the boarding house occupied by the Japanese. The mob drove the Japanese out of the camp.

Coronation Robes Elaborate.

London, Feb. 13.—Descriptions of the coronation robe of the king and the coronation robe of the queen, now making in England, emphasize the fact that the coming pageant will be the richest and most magnificent on record.

Six-Year-Old Boy of Mrs. Countryman a Victim the Third Time.

St. Joseph, Mich., Feb. 13.—Lawrence, the 6-year-old son of Mrs. A. J. Countryman, who has been a victim of two sensational kidnapping cases, has again disappeared from the home of his grandparents, Mr. and Mrs. Robert Van Brunt, of this city. He has not been seen since Monday morning. He left the house coatless, and his whereabouts are unknown.

For the last six years Mrs. Countryman lived in Chicago, where her husband was employed in the Union stock yards. One year ago they quarreled, and the mother with her two children returned to this city to live with her parents. On July 4 the boys, Lawrence, aged 5, and Albert, aged 8, were mysteriously stolen in broad daylight from in front of their grandfather's home in a densely populated section of this city.

The mother later found her boys in a negro den in Chicago, and escaped to a boat with the younger of them, after an exciting chase through the streets. Countryman pursued her to the boat, but passengers prevented him taking the boy, who has since been living here.

Want Reporters Admitted.

Washington, Feb. 13.—With the exception of a sharp clash between Mr. Lodge and Mr. Patterson over the matter of admission of representatives of the press to the investigation which the Philippines committee is conducting, the discussion on the tariff bill in the senate Wednesday was quiet. The Colorado senator desired that all newspaper men be admitted to the committee hearings, declaring that as now conducted they were of a star-chamber character. He said his recollection was that Mr. Lodge had suggested that the hearings be entirely secret. The Massachusetts senator indignantly denied that he had suggested anything of the kind. He insisted that the reports of the hearing by the three press associations were accurate and fair.

Mr. Teller occupied the attention of the senate during the greater part of the session and had not yet concluded his speech when the senate adjourned.
